To Whom It May Concern

For over 25 years Intergraph CADWorx & Analysis Solutions has provided software for multiple plant design and engineering disciplines with the aim that design and engineering should share relevant information seamlessly, thereby maintaining accuracy and improving efficiency.

Our offerings conform to that goal and includes: Intergraph CADWorx[®] Plant Design Suite for intelligent plant design modeling, process schematics and automatic production of plant design deliverables; Intergraph CAESAR II[®], the world's most widely used pipe stress analysis software; Intergraph PV Elite[™] for pressure vessel and heat exchanger design and analysis; and Intergraph TANK[™] for the design and analysis of oil storage tanks.

Our products are used around the world by nearly every major Owner Operator and global EPC firm. Likewise thousands of mid to small size companies are benefiting from the powerful, yet scalable, solutions that we develop. If you have critical work to do, correctly, on time, and under budget, our offerings are designed to meet those needs.

Meeting your needs locally is important to us so it is our pleasure to acknowledge IOCS Asia Pte. Ltd. as our authorized representative for Singapore, Malaysia, and Brunei. The IOCS head office is located at: 25 Mandai Estate (Tower I), Innovation Place #02-09, Singapore, 729930 Singapore (with an additional office soon to be opened in Malaysia).

If you have any questions or require further information, contact us at sales.icas@intergraph.com, or you may contact IOCS directly at +65 (0)6779 5122, or email them at info@iocsasiasia.com, or visit their website www.iocsasiasia.com.

Sincerely,

A handwritten signature in dark ink, appearing to read "Rick Allen". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Rick Allen
